Resolution 09-22-08

A Resolution

Adopting an Infrastructure Capital Improvements Plan (ICIP)

Whereas, the Town of Bernalillo recognizes that the financing of public capital projects has become a major concern in New Mexico and nationally; and

Whereas, in times of scarce resources, it is necessary to find new financing mechanisms and maximize the use of existing resources; and

Whereas, systematic capital improvement planning is an effective tool for communities to define their development needs, establish priorities, and pursue concrete actions and strategies to achieve necessary project development; and

Whereas, this process contributes to local and regional efforts in project identification and selection in short and long range capital planning efforts.

Now, Therefore Be It Resolved By the Town of Bernalillo That

1. The Town of Bernalillo has adopted the attached Infrastructure Capital Improvements Plan (ICIP) with a prioritization of five projects, and
2. It is intended that the Plan be a working document, that will be modified when appropriate throughout the planning process, and the adoption of the ICIP is the first of many steps toward improving rational, long-range capital planning and budgeting for New Mexico’s infrastructure.
