MAYOR'S UPDATE

Managing Bernalillo's Growth

Recent U.S. Census figures indicate Bernalillo was the fastest growing town in New Mexico. Our town grew by 17.16% from 2007 to 2008 (pop. 9,237). It was not a big surprise to Bernalillo's Planning & Zoning Department (P&Z) who has dealt with construction permits that went from 41 in 2003; to a peak of 390 in 2006 before a decline to 165 in 2008. More recently we see a strong trend for 2009. Based on anecdotal lot sales, P&Z conservatively estimates end of year 2009 permit numbers at between 125 and 150.

It is vitally important that we anticipate and continue to step up to the planning and management of this growth. We work hard to preserve the quality of life we currently enjoy while effectively managing the inevitable growth within and around us.

Along with an investment in personnel, financial management and geographically information systems we are poised to more effectively deal with this growth and make better management decisions. Revenues from housing construction, and increased revenues from commercial development and sales are all necessary to aid in the replacement of our aging infrastructure and address associated manpower needs.

We have procured outside funding and together with increased Town of Bernalillo gross receipts dollars have launched several new infrastructure projects. Construction of the Rotary Park bathroom structure is now underway. The letting of the Camino del Pueblo enhancement and Camino don Tomas improvement projects is initiated now in October with construction anticipated starting in early November 2009. Bid opening for the Westside Public Safety Station is scheduled for September 29, 2009.

When you read about Town public hearings and debates on growth issues and concerns, keep in mind that this is a necessary democratic, albeit sometimes, difficult process. These are important forums. Working together, we can manage this growth and still help Bernalillo maintain a healthy, prosperous, vibrant community with all its legacy, history and quality of life.

TOUGH ECONOMIC TIMES

Money is tight and we need to be extra careful with our limited resources these days; and as usual, there are people ready to take advantage of our situation. Here are some good resources for information and help.

FIRE SAFETY CELEBRATION

October 4th - 10th is National Fire Prevention Week. In partnership with Wal-Mart, Bernalillo Fire & Rescue will host a special fire safety celebration on October 10, 2009, 9:00 a.m.—3:00 p.m. in the Wal-Mart parking lot.

The event will help educate children and adults on the key points of fire safety. Food, kids games, an EMS helicopter, the Isotopes mascot and other entertainment will all contribute to delivering the safety message. Call FF Matt Urioste at 505.991.2505 for additional information.

FESTIVAL—A RESOUNDING SUCCESS!!

The 22nd annual New Mexico Wine Festival at Bernalillo held on Labor Day weekend a resounding success. Over the years, the New Mexico Wine Festival at Bernalillo has become the largest and best attended wine, arts, food, and entertainment event in the state.

Mayor Patricia A. Chávez commented; "Wine-making is a tradition in Bernalillo going back to the 1800s and it is fitting and proper that Bernalillo hosts the state's premier wine festival. My special thanks to all the workers and vendors who contributed to our success but especially to Wine Festival Executive Director and Town Clerk Ida Fierro, Carla Salazar and other Town Hall staff who worked tirelessly on the festival."

In spite of the economy, this year's event exceeded 2008 total tickets sales by 644 tickets not counting those purchased using wireless devices and scanned electronically at the gate. Attendance exceeded 6,400. People from as far away as the Yukon and Newfoundland enjoyed a diversity of New Mexico wines, cuisine, art, and entertainment.
