Decorating Safety

- Never use lighted candles near trees.
- Stand your tree away from fireplaces, radiators and other heat sources.
- Avoid placing breakable tree ornaments or ones with small, detachable parts on lower branches where small children or pets can reach them.
- If you use an artificial tree, choose one that is tested and labeled as fire resistant.
- Turn off all lights on trees and decorations when you go to bed or leave the house.

Winter Vehicle Preparation

- Prepare your car for the winter by checking items such as the brakes, spark plugs, battery, and tires.
- Be prepared for emergency situations on the road by having a winter "survival kit" in the vehicle including items such as, a working flashlight, extra batteries, reflective triangles, compass, first aid kit, exterior windshield cleaner, ice scraper, snow brush, wooden stick matches in a waterproof container, and non-perishable, high energy foods like unsalted canned nuts, dried fruits, and hard candy.
