Water System Improvements Mountain View Estates Subdivision

The Town of Bernalillo has secured outside funding for water system improvements for the Mountain View Subdivision. Work in this area will take place for homes that reside on Richardson Drive north to Bobby Place and from Carolina Drive going as far as Swann Loop and Michelle Circle.

AUI, Inc. has been contracted for this project and is getting ready to start the Mountain View Services project for the Town of Bernalillo. The work covers replacing the 3/4" water service lines to properties in the area and adding additional fire hydrants throughout the neighborhood. **Construction will start on May 26th, after the Memorial Day weekend, and is anticipated to last for 4 months (approximately).** AUI crews will be onsite Monday through Friday between the hours of 7:00am - 5:00pm.

During the project, AUI will maintain access to your residence. When working on your water service, AUI will need access to your property if your water meter is behind your property fence. AUI will follow-up with notification and information flyers as they approach individual streets.

The Town of Bernalillo and AUI, Inc. thank you for your assistance in getting this upgrade project completed as quickly as possible. And, we apologize for any inconvenience this work may cause. Please contact AUI's Main Office at (505) 242-4848, with any questions or concerns.
